

Howard Charney
Distinguished Professor of Innovation
Santa Clara University School of Law

Recently retired from Cisco, **Howard Charney** is a Distinguished Professor of Innovation at Santa Clara University School of Law. Formerly, he served as a senior vice president at Cisco, where he contributed to Cisco's strategy and direction. He advised businesses, governments, and educators around the world on implementing critical technologies to improve productivity and competitiveness. At Cisco, and before Cisco as co-founder of 3Com and the founder of Grand Junction Networks, he oversaw the development and proliferation of key technologies such as Fast Ethernet and low-cost switching that led directly to the global build-out of the Internet. Howard holds Master of Business Administration and Juris Doctor degrees from Santa Clara University, Bachelor and Master degrees in mechanical engineering from the Massachusetts Institute of Technology, and is a licensed patent attorney and a pilot. Howard serves on the Board of Trustees of Santa Clara University and the advisory board for the University's Miller Center for Social Entrepreneurship. He received the Santa Clara Law Alumni Special Achievement Award in 2014. In 2018, Santa Clara University awarded him an honorary Doctor of Laws.
